

16 July 2024

## Year 13 A level Exam Results Information – Thursday 15<sup>th</sup> August 2024

Please find details of key information regarding exam results this year.

### A Level Results Day – Thursday 15<sup>th</sup> August 2024:

- **All Year 13 students must check that their school email account is currently working as expected.** If there are any issues with your email account please contact [IT@st-laurence.com](mailto:IT@st-laurence.com) for support.
- Students will be sent results via their school email from 8.00am. Please be patient with this as, given the size of the cohort, it may take a little time for the emails to be received by the students.
- **UCAS** – students need to get onto UCAS as soon as they can and accept places.
- **Please check your UCAS accounts** – there is lots of information available to support you.
- Get on the phone early and be patient. Every University will have teams of officers there to support you.

### What if I have not met my offer?

- Phone your preferred University first – it may be that they still accept you even if you are below the offer.
- You can decline your place and look for places via Clearing (Details about this are very clear on UCAS so do have a look on the site for support) [Clearing | UCAS](#).
- Work together on the phones – speed is the key as Universities want to ensure that they have all their places filled.

### Exams Post Results Services & Certificates:

- You do have the option to access post results services. Information on this will be available in the results email and on the school website here [Exams | St Laurence School \(st-laurence.com\)](#). Any queries contact [exams@st-laurence.com](mailto:exams@st-laurence.com)
- Certificates will be available in December and it is our intention to issue these at an Awards event for the year group before Christmas

### A level Support:

- Students will be able to make an appointment with **Mr Blowers or Mrs Chatfield virtually using Schoolcloud** (the system we use for Parents' Evenings) from **10am on Thursday 16<sup>th</sup> August**. Details of how to do this will come with results.
